SUMMARY

Full-stack developer with a passion for learning new technologies and working with teams to create user- friendly web applications. Over three years of experience in web development, including front-end and back- end technologies: JavaScript, TypeScript, React, Vue, Svelte, Node.js, Nest.js, MongoDB, Elasticsearch, Python, Django Rest Framework

WORK EXPERIENCE

BK Mobil (Full-time) ***Aug 2023 — Present***

Full-stack Developer

- Developed interactive, responsive and scalable frontend using HTMLS, CSS3, JavaScript ES6, React, Typescript,React Query, Redux State Management etc.
- Designing a website with HTML, CSS, SASS (SCSS) and Tailwind codes
- Support HTML and CSS projects using JS Dorn manipulation and event listeners
- Working with back-end developers to integrate UI components with APIs and databases
- Enabling customers to make transactions on their websites using Json, local storage and array methods
- Experienced with transforming Figma components to React reusable components
- Debug errors, troubleshoot issues, and performing routine performance optimizations
- State management applied using Redux Toolkit
- Used SCRUM & Agile methodologies and JIRA while working on individual & group projects
- Used Version Control Systems **(Git & Bitbucket)**
- Experienced in writing modular and reusable codes, using build tools and package managers
- Supporting team members in aspects of code review, clean code, new technologies, team management etc.
- Reporting and informing C-level and the project management about project life-cycle

Cambria (Remote/ USA, Full-time) ***Dec 2022 - Aug 2023***

Full-stack Developer

- Developed interactive, responsive and scalable frontend using HTMLS, CSS3, JavaScript ES6, Svelte,Node.js, WebSocket
- Realizing the users' game interactivity each other via WebSocket
- User data fetching via Supabase
- Designing a website with HTML, CSS, SASS(SCSS) and Tailwind codes
- Support HTML and CSS projects using JS Dorn manipulation and event listeners
- Requesting APIs using Async, Await and Fetch structures to view data from various platforms
- Enabling customers to make transactions on their websites using Json, local storage, and array methods
- Debug errors, troubleshoot issues, and performing routine performance optimizations
- State management applied using Svelte
- Experienced in writing modular and reusable codes, using build tools and package managers
- Studied on Computational Thinking, Operating Systems, Linux, Version Control Systems (Git & GitHub),Software Development Life Cycle (SDLC)
- Used SCRUM & Agile methodologies and Linear (see https://linear.app/) while working on individual &group projects

Panda Network (Remote/ Estonia, Full-time) ***May 2021 – Feb 2023***

Full-stack Developer

- Developed interactive, responsive and scalable frontend using HTMLS, CSS3, JavaScript ES6, Svelte
- Designing a website with HTML, CSS, SASS(SCSS) and Tailwind codes
- Support HTML and CSS projects using JS Dorn manipulation and event listeners
- Requesting APIs using Async, Await and Fetch structures to view data from various platforms
- Enabling customers to make transactions on their websites using Json, local storage, and array methods
- State management applied using Svelte
- Built a Dashboard page showing data related to users integrated with Elasticsearch
- Experienced in writing modular and reusable codes, using build tools and package managers
- Studied on Computational Thinking, Operating Systems, Linux, Version Control Systems (Git & GitHub& GitLab),Software Development Life Cycle (SDLC)
- E2E testing components with using Cypress
- Website Crawling with Puppeteer & CSS Selector
- Used SCRUM & Agile methodologies and Trello (see https://trello.com) while working on individual &group projects

TECHNICAL SKILLS

HTMLS | CSS3 | JavaScript | TypeScript | React | Vue | Svelte | Node.js | Nest.js | MongoDB | Supabase Elasticsearch | SASS | Tailwind | Express | Git | GitHub | GitLab | Bitbucket | APIs | Agile | JIRA | Trello| Linear |RESTful APIs | Puppeteer | Python | Django Rest Framework

SOFT SKILLS

Analytical Thinking | Problem-Solving Abilities | Self-Motivated | Strong Communication | Project Management | Planning | Time Management | Adaptability | Continuous Learning | Collaboration & Teamwork | Coaching Mindset | Resilience | Curiosity | Emotional Intelligence | Creativity

PROJECTS

- **Mentora Admin Panel:** Mentora is planned for academical docs and users' usage data applying and managing on the system.

  Skills/Tools: *HTML, CSS, Typescript, JavaScript, React.js, Tailwind, React Query, Redux Toolkit, Git(Bitbucket)*

- **Cambria:** Cambria is the game of users' competition between each other through developing their own level and items.

  Skills/Tools: *HTML, CSS, OOP, Typescript, JavaScript, Node.js, Svelte, Git (GitHub), Supabase, WebSocket*

- **Panda App:** Panda is providing web applications and browser extensions for developers and designers. It's main product (panda 5) is aggregating news from different sources and providing them from a user- friendly single source.

  Skills/Tools*: HTML, CSS, JavaScript, Axios, Git (GitHub/Gitlab), MongoDB*

- **Designer Daily Report:** Designer Daily Report is extension opens a daily Designer Report on a background tab (non-distracting) roughly around 00:00 AM PST time.

  Skills/Tools: *HTML, CSS, JavaScript, TypeScript, Svelte, Nest.js, Git (GitHub/Gitlab), MongoDB, Elasticsearch*

- **Flat UI Colors:** Flat UI colors 3 features 13 more color palettes. Collaborating with designers around the world, a total set of 280 colors are on your command for your next Project, design, presentation.

  Skills/Tools: *HTML, CSS, JavaScript, TypeScript, Svelte, Nest.js, Git (GitHub/Gitlab), MongoDB*

- **To - Do App:** In this project, a simple To-Do application was made using the array structure. User can add task from bowser, mark tasks as completed and delete them. Completed/total number of tasks can be displayed with a counter.

  Skills/Tools: *Svelte, JS Dorn Manipulation and Event Listeners.*

EDUCATION

Kırıkkale University, Electrical and Electronic Engineering

1st rank in the department, High-Honor Student

LANGUAGES

- **Turkish:** Native Speaker
- **English:** Upper-Intermediate
- **German:** Beginner
